

All the women connected with the newspapers have been invited to the "reclamation" proposition of the men of the Press club next Saturday evening, and they have all accepted. This will be the first time the invitations have gone beyond the unfair sex to the fair, and there is great rejoicing over the fact that the men are not to be left to eat their solemn feast in loneliness.

Society is getting busy these days on the sack cloth and ashes proposition, having only two days left in which to prepare those necessities against the time of mourning. Some of the dwellers in flats must be hard put to it to secure the ashes, but no doubt the proper amount of repentance will be forthcoming whether or not.

Who'd have thought that the first two months of leap year would bring forth such a crop of spring marriages. With the good results already apparent, no one should be discouraged, but every maiden, whether of tender years or the other variety, should be encouraged to "go forth and find."

The developments of the past few days would lead to the opinion that there might be some attraction for an army man beyond the footlights. The affair may be one of art alone, or it may be a platonic condition only, but the circumstance seem to be propitious for a matrimonial event.

So many matrimonial announcements have been made recently, and there are so many more that are already in the nature of settled affairs, that one of the most attractive debutantes who has not been so far included in the onrush announced recently that she thought she would open an artery in her wrist.

And, speaking of wrists, has anyone noted what has become of the magnificent bracelet which the lady kept, both figuratively and literally, up her sleeve for so long? There seems to be a division of opinion as to whether it has found its way back to its source or not.

Another one of the ministering angels is soon to be joined in the bonds of matrimony, and another maid made happy nurse. The way sensible men do select nurses for wives would argue that they expect a certain amount of invalidism in the lives of the healthiest.

Among the events of the early summer, not scheduled, but said to be imminent, is an interurban alliance, which would unite Salt Lake and Ogden in a much firmer bond than has heretofore existed.

Mr. Wetzel preceded the music with a brief talk on his presentation of the subject showing his methods, and later he gave practical demonstrations of the training of the eye, ear and tone in singing.
